MINING
TRUCK CUSTOMIZATION
COMPANY PRESENTATION

- 40,000 m² production plant in Pordenone (Italy)
- manpower: 80
- production capacity: 500-550 unit per year
- production on “demand”
- organization process: LEAN production

Cutting edge technology: automatized sandblasting central – electronically controlled painting and warming room

Continuous product improvement and new product development, such as new hydraulic suspension having independent lateral oscillation of both sides of each axle for off-road semitrailers of SBT line.
Customized semi trailers and trailers, from 2 to 13 axles, for any kind of heavy weight and special transport, such as: earthmoving machines - industrial machineries - large shape machineries and materials - concrete materials - building materials – boats – tanks - any heavy weight large volume or concentrated volume product.
